ANATOMY
SAQ - Paper I
(Group-A)
General Embryology

1. Define fertilization. Write about the stage/phase of fertilization (use diagram) **(CMU:** Nov-22, May-21, 20, May-19) (Ja-16, Ju-16, Nov-16, May-19). What are the results of fertilization. **(Nov-25) (CMU:** May-23, Nov-22, 21, 20, 19) (Ju-10, 13 Ja-13, Ju-14, Ja-15, Ju-15, May-16, 17) (Nov-17, May-18) Justify epiblast is the source of all three germ layer **(CMU: May-25)**
2. Write about gastrulation/ Step of gastrulation (N-18) with (use diagram) **(CMU:** May-22, 21, 20) (Ju-12, 16, May-17). Give the derivatives of ectoderm (Ju-10,16, Nov-16, 17)
3. Write about the formation and function of notochord with diagram. **(CMU:** May-22, 21) (Ju-10,16, May-16) Write down the structure of full term placenta **(CMU:** Nov-23)
4. Write down the development **(CMU:** May-19) and histological structure of placenta. Name the abnormal placenta. (Nov-15) **(CMU:** May-22, Nov- 19)
5. Name the derivatives of ectoderm & endoderm **(Nov-25) (CMU:** Nov-24, 22, May-20) (May-18, Ja-14 Nov-15, Ja-16)
   Derivatives of surface ectoderm **(CMU:** Nov-20) (Nov-18)
6. Define and mention the usual time of ovulation. Name the contraceptive methods that don't hamper the ovulation. (May-18) what is the importance of somite. **(CMU: May-25)**
7. Write briefly about the somites? Give the derivatives of mesoderm. **(CMU:** May-22, Nov-19) (Ja-07, 09, 14, Ju-11) Mention the derivatives of paraxial mesoderm. **(CMU:** Nov-23)
8. Give short note on full term placenta. Write development & function of placenta **(Nov-25) (CMU:** Nov-22, 19, May-22) (May-18,19) (Ju-14,16 Ja-09,13, Nov-15, May-17)
9. Write briefly about monozygotic & di-zygotic twin **(May-25) (CMU:** May-19) Difference (Nov-23) (May-18) (Nov-17, Jan-15, 16) with diagram. Characteristics of dizygotic twin (Nov-16)
10. What is implantation? What are the Normal site of implantation (May-15). Give its mechanism. Mention abnormal site of implantation. (May-15)
11. Define spermatogenesis. Mention the events of spermiogenesis (Nov-18). Mention the results of fertilization. (Ju-10) Write about spermiogenesis **(CMU:** Nov-19)
12. Mention the sites of ectopic pregnancy **(CMU:** Nov-22, 21, 20, May-19) (Ju-16) (Nov-17)
13. Write about polar body **(CMU:** Nov-19)
14. **Short Note:** i) Spermatogenesis. **(CMU:** Nov-21, 16, 15) (Ju-16, Ja-15)
    ii) Notochord. (Ja-15, Nov-16)
    iii) Placental Barrier (Ju-14, Ja-15,16, Nov-16)
    iv) Corpus luteum. (Ja-14, Ju-15, Nov-17)
    v) Barr body.(Ja-13 Ju-12, May-18,16)
    vi) Polar body (May-17) (Nov-18)
    vii) Graafian follicle **(CMU:** Nov-19) (Ju-13, Ja-16, May-17)
    viii) Enumerrate the foetal membranes. (Ja-15, Nov-16)
    ix) Teratoma (Ju-14, May-17)
    x) Congenial malformation (May-15)
    xi) Morulla **(CMU:** Nov-20,15)
    xii) Umbilical cord (May-16)
    xiii) Somite **(CMU:** May-19, 18,16)
    xiv) Spina bifida (May-18)
    xv) Draw & label Cell membrane. (Nov-18)
    xvi) Write about placental barrier (Nov-18)
    xvii) Tubal pregnancy **(CMU:** Nov-22, May-19)
    xviii) Ectopic Pregnancy **(CMU:** May-20)

CamScanner

xix) Capacitation.

15. Write about neuralation with diagram (May-18)
16. Morphological description of full term placenta (Ja-16)
17. Define gametogenesis. How oogenesis differ from spermatogenesis? Write down the changes that happen in spermiogenesis. (Ja-12, 14, Nov-15)
18. Name the primary germ layer. Mention the derivatives of each layer/mention the derivatives of neural crest cell.(Ju-15,10,13 Ja-10,11,15, May-19)
19. Why second week of development is called week of two. **(Nov-25)** **(CMU:** May-24, Nov-20,18,17) (Ja-07, Ju-08, May-15, 16)
20. Write down four clinical features of Down's syndrome (Ju-13, Nov-16)
21. Mention the process of gastrulation? (Ju-13)
22. Mention the changes in 2nd week of development. (Ju-14)
23. Mention three differences between dizygotic & monozygotic twins. **(CMU: May-24)** (Ja-16,15)
24. Explain patient of turner syndrom is infertile. (Ja-16)
25. Mention the function of amniotic fluid. (May-15)
26. Increase chance of having abnormal babies amonged aged mother usually after 35years of age. (May-16)
27. Enumerates the foctal membrance. **(CMU:** May-20) (Nov-18)
28. Name of the neural tube defects mentioning their time of occurence? **(CMU:** May-19) (May-17) Classify neural tube defect with example. **(May-25)**
29. Write down the formation of notochord **(CMU:** May-19)
30. Write down the derivaties of neural crest. (May-17) Mention 6 Derivatives of neural crest cells. **(CMU:** May-23)
31. Four derivaties of neural crest. **(May-25)** **(CMU:** May-21)
32. What is placenta praevia ? (May-17)
33. What is sacrococcygeal teratoma? **(CMU:** May-21, 20)
34. Write down the formation of placenta in short? **(CMU:** May-21, 20)
35. What is desidua? **(CMU:** May-22)
36. Fate of cloaca. **(CMU:** May-22)
37. What is the embryologycal basis of anecephaly? (**CMU:** May-24)
38. Difference cytotrophoblast and syncytotrophoblast. **(CMU: May-25)**
39. Classify intraembryonic mesoderm with one derivatives of each. **(CMU: May-25)**

[For systemic embryology please see systemic part]

oogenesis

বলুন, নিশ্চয়ই আমার নামাজ, আমার কুরবানী, আমার জীবন, আমার মরণ সবই প্রতিপালক আল্লাহর জন্য।
-আল কুরআন (০৬:১৬২)

what do you mean by malformation, deformation & disruption ? (CU-13)

CamScanner

ANATOMY

General Histology

Cell and Cell division

1. **Definition & Short Note:**
   a) Mitochondria (**CMU:** May-22, 17) (Ja-15, Nov-18,15, Ju-16)
   b) Endoplasmic reticulum (**CMU**: Nov-22, 21, 20, 16) (Ja-15, Ju-16)
   c) Lysosome (**CMU:** Nov-22, 20,18,15)
   d) Prophase-1 (Nov-15) (May-17)
   e) Write about cell cycle(**CMU:** May-22), (May-18)
2. Draw and label a microscopic structure of cell membrance. (**CMU:** May-21,15), (Ju-10,14, J 16, Nov-16) Function of cell membranes (Ja-14, Ju-15); (**CMU:** May-22,15)
3. Name the cell surface modifications of epithelial cell (**CMU:** Nov-23) Mention its function. (J 09, 14, May-15, Ju-15, Ja-16); (**CMU:** May-22) and its location (**CMU:** Nov-24)
4. Write about the intercellular junction with diagram & example.(May-15, Ja-05) Differenc between organelles & inclusions. **(Nov-25)** (**CMU:** Nov-20,17)
5. Differences between mitosis & meiosis (**CMU: Nov-24,** May-20, May-19) (May-18,19, Ju-1(13,14, Ja-16). Mention importance of meiosis. (**CMU: May-25, 24**, May-15)
6. Name the characteristic events that take place in meiosis. (**CMU:** Nov-20,19) (Ja-07)
7. Draw & level electron microscopic structure of cell membrane. (Ja-09, 10, Ju-13,11,10,09)
8. Name the membrane bound organelles. (Ja-15, Ju-16, Nov-17, May-19)
   of cells with function of two of them. (**CMU**)
9. Write about cytoskeleton of the cell (May-16) (**CMU:** May-19)
10. Write about mitochondria & endoplasmic reticulum (**CMU:** Nov-19)
11. Write in short about the ultra structure of human cell membrane (use diagram) (**CMU:** May-20)
12. Difference between polar & barr body. (**CMU:** Nov-24)
13. Classify organcells of a cell. **9cmu: Nov-25)**
14. Structure and Function of two organcells of a cell. **(CMU: Nov-25)**
15. Which organcells is called suicidal bag and why? **(CMU: Nov-25)**

Tissue-Bone-Cartilage-Joint-Muscle

1. **Definition and short note:**
   a) Mention the basic tissues of body. (**CMU:** Nov-23)
   b) Periosteum. (**CMU:** Nov-23, 22, 21, 20, 19) (Ja-16,14,13, May-17,15, Ju-15, 16, Nov-18)
   c) Fibroblast. (Ja-06,13, Ju-15)
   d) Growing end. (Ja-07,08, Ju-13, 16, May-17)
   e) Plasma cell. (Ja-12, Nov-16)
   f) Articular cartilage (**CMU:** May-22, Nov- 21) (Ja-15, Ja-16, Ju-16, May-19)
   g) Sarcomere (**CMU:** May-20) (Ju-15) with is importance (**CMU:** Nov-23)
   h) Ossification (Ju-15)
   i) Epiphyseal cartilage (May-16)
   j) Collagen fiber (May-16)
   k) Haversian System (Nov.17) (**CMU:** May-22, 20, 19) Draw & lavel (May-18)
   l) What are the types of epiphysis with each example (May-18); (**CMU:** May-22)
   m) Short Note: Prime mover muscle (May-18)
2. What is joint? Classify joint (fibrous) with example. (Ja-05, 08, 09, Ju-14, Ju-15, Nov-23)
3. Classify synovial joint with example according to the axis (May-17) (Ja-05, 12,13, 14 Ju-10, May-15, Nov-15), According to morphology (**CMU:** Nov-22, 21)

CamScanner

4. Write about characteristics of synovial joint **(CMU: Nov-25, 24,** May-23, 22,19) (Nov-18, Nov-17)
(use diagram). (Ju-15,16)
5. Write about factor responsible for maintaining the (Nov-18) stability of synovial joint **(CMU:** May-24, 22, 19, Nov-23, Nov-20) (Nov-17, Ja-05,11,12,15 Ju-14, 16, May-16, Nov-16)
6. Define bone and classify morphologically with example. **(CMU: Nov-25,** 20) (Ja-12,15, Ju-10, 13, 16, Ja-16, May-17)
7. Draw & label the parts of a growing long bone **(CMU: May-24,** Nov-22)
8. Give composition and function of the bone. (Nov-16)
9. Draw and label blood supply of developing long bone **(CMU:** May-19) (Nov-17, May-18)
10. Classify long bone with example **(CMU:** Nov-22, May-19) (Nov-16, Nov-18, 22)
11. Name the cells of the bone and write their function. **(CMU: May-25,**Nov-23,21, May-20, 19, 17)
12. Why infection is common in metaphysis? (Ju-10, 16, Ja-12,13, May-16) Metaphysis is clinically important **(CMU: May-25,** 23, May-22, 21,19, Nov-19)
13. Write the artery supply of long bone /growing long bone (**CMU**: May-21) with diagram. **(CMU:** May-20), (Ju-12,13,16, Ja-14, 16, May-16, Nov-17)
14. Enumerate any four corrective tissue cells with one function of each**(CMU:** May-21)
15. Write about growing end of a long bone. With example. **(CMU:** May-22, 25, 21) With its importance (Nov-23)
16. Name the connective tissue cell with their functions **(CMU:** Nov-22, 20, May-22)
(Nov-18, Ja-08, Ju-10, Nov-15, 16, May-16, Nov-17)
17. Define cartilage. Differentiate between hyaline cartilage, Fibro **(CMU:** Nov-22, May-19) cartilage and elastic cartilage **(CMU:** Nov-24, Nov-18, May-17). Classify cartilage with an example of each. **(Nov-25)**
Why articular cartilage is indispensable.(Ja-13, Ju-14,16 May-15, Ja-16)
Name the locations of different type of cartilage (Nov-15) one of each **(CMU:** May-24)
18. Difference between different types of muscle. **(CMU:** May-19)
(Ju-13, 15, Ja-11,12,14,15, Nov-15, 16,17, May-16)
19. Write down four differences. Important historical difference between various type of muscle in tabulated from. **(CMU: Nov-25,** 23 May-23, May-21, Nov-21) Draw & label histological feature of cardiac muscle **(May-25, Nov-25) (CMU:** Nov-24)
20. Classify connective tissue fiber with distribution. What is sarcomare? (Ja-12, 14) Mention the peculiarities of sesamoid bone. (Nov-18, May-15)
21. Give the classification & characteristic features of cartilage. Give the structure of epidermis with diagram (Ju-15).
22. Mention the basic differences between intra-membranous & intracartilaginous ossification. (Ju-12)
23. Classify muscle according to direction of fiber (May-18)
24. Write down the types of epiphysis with one example of each **(CMU:** May-23, May-19).
25. Classify synovial joint according to the shape of articular surface. With one example of this **(CMU:** May-20, May-19)
26. Write three differences between primary & secondary cartilaginous joint in tabulated from. **(CMU:** Nov-24, 23, May-21)
27. Enumerate three surface modification of epithelial cell mentioning one location of each.
(CMU: Nov-24, May-22)
28. Write down the important histological difference among different types of musles in tabulated form (three) **(CMU:** May-24)
29. Mention the structure & Function of two connective tissue cell (use diagram)

CamScanner

Genetics

1. **Definition:**
   a) Translocation (May-15) b) RNA (May-18)
   c) Down syndrome (clinical feature (Nov-18, May-16)
2. Classify chromosomal abnormality and write about numerical abnormality. (Ju-05, 08, Ja-06, May-15)
3. What do you mean by trisomy? Mention karyotype & four clinical features of Down's syndrome (**CMU:** Nov-20) (Ja-06,09,15, Ju-09)
4. Explain patient of Turner syndrome is infertile (Ju-13,Ja-15)
5. Name the parts & types of chromosome according to centromeric position (May-15)
6. Write down four clinical feature of Turner's syndrome.(**CMU:**Nov-21, May-19) (Ju-16, Nov-17).
7. Write four difference between DNA & RNA (May-16)
8. Write four characteristic feature of Down syndrome (**CMU:** May-22, 20)

Epithelium and Gland

1. **Definition and short note:**
   b) Transitional epithelium (**CMU:**Nov-21, May-19) with function. (**CMU:** May-19) (Ja-05, May-15)
   e) Simple squamous epithelium (**CMU:**Nov-19) (Nov-18 (Ja-15, Ju-16, Nov-16)
2. Classify gland based on nature of secretion, mode of secretion (**CMU:** May-21, 20, May-19) (M-18) with example. (Ju-10, May-15, 16,17) (**CMU:** Nov-23)
3. Write characteristics of Epithelial tissue (Nov-15), (**CMU:** Nov-22, 19, May-20)
4. Define (May-15) & classify gland (May-15).
   a) accordingly to mode of secretion with example (**CMU:** Nov-23).
   b) Differences between serous & mucous acini. (Ju-07,14)
5. Explain- skin contains keratinized stratified squamous epithelium (Ju-13,Ja-15,May-15)
6. What are the functional parts of gland (May-15) & mode of secretion with example.
7. Explain-respiratory tract contain cliliated columnar epithelium. (Ja-16)
8. Urinary bladder contains transitional epithelium. (May-16)
9. Write about junctional complex of epithelial tissue? (May-17)
10. Explain skin is water proof (May-19)
11. Classify gland according to manner of secretion with example (**CMU:** Nov-24)
12. Difference between epithelial tissue and connective.
13. Classify gland according to development with example.

Cardio vascular & Nervous system

1. What is end artery? (May-16) Write their types and function (Nov-15).
2. Define capillary? (Nov-17) Classify (Nov-18) capillary with location diagram. (**CMU: May-25**). Example. (**CMU: May-25, Nov-25**) (Ju-13, 16, Ja-15, Ja-16)
3. Difference between capillary and sinusoids (**CMU:** Nov-22, 21, May-19) (Nov-18, Ju-13, 16, Ja-15, 16, Nov-16, 17)
4. Name the non excitable cells of nervous system (Ju-14, 15)
5. Classify arteries with example. Explain the significance of elastic fiber in aorta. (Ja.16) write down difference between artery & vein (**CMU:** May-20) (May-15, 19)
6. Write down the difference between Pulmonary & systemic circulation (May-18)
7. What is functional end artery (May-18). Write about functional end artery (**CMU:** May-19) with site & clinical importance (**CMU:** May-22)
8. Write down the limbic system. (Nov-18)
9. **S/N:** Capillary (Ju-14, May-16)
10. Mention 4 sites of functional end artery in our body. (**CMU:** May-23)

CamScanner

11. Classify capillary with example of an each. What are the exchange vessel and why they are called so? **(CMU:** May-24) **(Nov-25)**
12. Difference between true and artery with example. **(CMU: May-25)**
13. Mention the structure function and location of two neurological cells. Use diagram **(May-25)**
14. Classify neurons according to polarity with an example of each. **(Nov-25)**
15. Mention the effect of the autonomic nervous system on the heart.

Lymphatic System

1. Histological structure of lymph node. **(CMU:** Nov-22) Differences among lymph node (May-18), spleen & thymus (May-18, Ju-07, 08, Nov-15, 16)

(Group-B)

Head & Neck

Scalp

1. What is black eye? **(CMU:** Nov-23, 20) (Ju-09,10, Ja-06, 07, 08, 10, 12)
   How black eye develop. **(May-25)**
2. Write layers of scalp with clinical importance, blood supply, nerve supply. Why 4th layer of scalp is dangerous? **(Nov-25)** What is diploic vein? (Ja-06, 07, 08, 11, 13)
3. **Explain anatomically-**
   a) Wounds of the scalp bleed profusely. (May-15, 16, 17, Nov-18)
   b) Loose areolar tissue of scalp is a dangerous layer. **(CMU:** Nov-22, May-20) (Nov-15,16, May-18,19)
4. Name the layers of scalp (use diagram). **(May-25)** **(CMU:** Nov-20) Which layer is clinically important & why? Why scalp bleeding is difficult to stop? **(CMU:**Nov-19) (May-15, Ju-15)
5. What is dangerous layers of scalp and why? **(CMU:** Nov-21) **(May-25)**
6. Why cut injury of scalp bleed profusely? **(CMU:** May-23)
7. Differences between emissary vein & deploic vein. **(May-25)**

Face

1. Mention the nerve supply of face according to its developmental background. **(CMU:** May-23, May-22, Nov-19) (Ja-05,15, Ju-16, Nov-16, 17, 18)
2. S/N- a) Bells palsy or Facial palsy **(CMU:** Nov-22, May-19) (Ja-05,08,09,12,14, Ju-06,10, Ja-16)
   b) Dangerous area of face & Why **(CMU:** May-22) (Ju-14, Nov-17)
3. Write down the development of face. Enumerate the abnormal development of face. **(CMU:** May-19) (Ja-16) Developmental source of the face. **(May-25)**
4. Lower part of the nose and upper lip is called dangerous area of the face **(CMU:** May-19) (May-16)
5. Sensory nerve supply of face according to development background. **(CMU:** May-21)

Lacrimal Apparatus

1. Describe lacrimal apparatus. Trace the pathway of tear. (Ja-06, 08,13, Nov-15)
2. Draw and label lacrimal apparatus **(CMU:**Nov-21, May-19) (Ju-16, May-16, 17, 19)
3. Why optic nerve considered as tract. **(CMU: Nov-23)**

Thyroid Gland

1. a) Give the gross anatomy and histology of thyroid gland (use diagram). **(CMU:** May-23, May-22, 21, 20, 19) (Ja-10,15, Ju-13,16, Nov-15, 16,17, May-16, Nov-18)
   b) Development & congenital anomalies of thyroid gland. (Ja-06, Ja-16)
   c) Hoarseness of voice may developed followed by thyroid surgery (Ju-13, Ja-15, Nov-16)

CamScanner

2. a) Write down the development and blood supply of the thyroid gland.(**CMU:** Nov-21) (Ju-12)
   b) Why it moves with deglutition. **(Nov-25)** (**CMU:** Nov-23, May-19) (May-17, 19)
3. What precaution to be taken during thyroidectomy operation. Why hoarseness of voice develop after thyroid operation. (**CMU:** May-19) (Ju-07, 09, 10,12, Ja-16)
4. What is thyroglossal cyst? (**CMU:** Nov-19) (Ju-13,16 Ja-15, Nov-17)
5. What is thyroglossal duct? (Nov-16)
6. Explain developmentally: Why inferior parathyroid gland is called parathyroid III? (**CMU: May-23,** May-22)

Parotid Gland

1. Histological structure of parotid gland. (Nov.16) Mention the location and autonomic innervations of parotid gland.
2. Name the structure within the parotid gland. (**CMU:** Nov-21, 20) (Ju-13,16, Ja-15,16, Nov-18)
3. What are the structure pass through parotid gland. (**CMU:** Nov-22)

Orbit

1. Name the extraoccular muscles with their nerve supply (Nov-16) and action.
2. Write down the content of the orbit (Ju-16) (Nov-18)

Nose & Paranasal Air Sinuses

1. Name the paranasal sinuses. Mention their lining epithelium and the sites of opening & Function. (Ja-10, 08, 04, 11, 12) What is sinusitis. (**CMU:** Nov-23)
2. Write about maxillary air sinuses. (**CMU:**Nov-21) (Nov-17)
3. Why maxillary sinusitis is more commonly infacted? (**CMU:** Nov-22, May-19) (Nov-17) (Ja-08, 15, Ju-13, Ju-15, Nov-15, Ja-16) (Nov-18)
4. Formation of nasal septum? Write about Little's area with its location & importance. **(May-25)** What is epistaxis? (Nov-15)
   Blood & nerve supply of nasal septum. (Ja-15, May-16, 19).
5. Describe lateral wall of nose with diagram. (Nov-23) (Ja-13, Nov-15, Ja-16)
6. Artery supply of lateral wall of nose (Ju-16, Nov-16, Nov-18)
7. Give the features of lateral wall of the nasal cavity (Nov-17) (**CMU:** May-19)
8. Explain anatomically/ developmentally/ histologically: Maxillary air sinuses are commonly infected. (**CMU:** May-20)

Tongue

1. Name the extrinsic muscle of tongue? What is tongue tie? (**CMU:** Nov-20) (Ja-09,10,12; Ju-06,09,10,14, Ju-15)
2. What is the safety muscle of tounge & why? (**CMU:** Nov-23)
3. Name the abnormal development of tongue (Nov-15)
4. Write the sensory nerve supply of tongue on developmental background (**CMU:** Nov-22, May-20, 19) (May-18, May-15, Ju-15, 16, May-16, 17, 19) (Nov-22)
5. What is cleft lip? (Ju-15) (May-18)
6. Draw & label the histology of tongue. **(May-25)** (**CMU**: Nov-22, 21, 20) (May-19)
7. **S/N:** Epiglottis (**CMU:** Nov-21, 19)
8. What is ankyloglossia.? (**CMU:** May-23, Nov-21, May-19) (Ju-16)
9. Nerve supply of tongue on development background **(Nov-25)** (**CMU:** May-24, 21 Nov-23, 22)

Ear

1. **S/N-**Tympanic membrane. (**CMU:** May-19) Development & blood supply of tympanic membrane. (Jan-06,13 Ju-07, May-15, Ju-15)
2. Explain otitis media/ middle ear infection is common in children. (**CMU:** Nov-22)
3. **S/N-**Auditory tube (**CMU**: Nov-20, 19) (Ja-15, 16, Ju-16, Nov-15, 16, 17, Nov-18, May-19)

CamScanner

4. Give boundary, content (**CMU:** May-22), communication & lining epithelium of middle ear cavity (Ja-14,15, Ju-15)

Tonsil

1. What do you mean by Waldeyer's ring? (**CMU:** May-19)
2. Differentiate palatine tonsil & lymph node in a tubular form.(Ja-13, Nov-15)
   Artery supply of palatine tonsil (Nov-18)
3. How tonsilar bed is formed? (May-16) What is adenoid? (Ja-15, Nov-15)
4. S/N- Tonsilar bed (**CMU:**May-20)

Pharynx & Larynx

1. S/N- Describe Pyriform fossa Boundary with clinical importance. (**CMU**: Nov-23, 20, May-22) (Ju-07, May-18)
2. Short description of interior of larynx. (Nov-23) (May-19)
   Draw & Level the interior of larynx. **(Nov-25)**
3. Name the cartilage of larynx (May-17, 18, Ju-15) Mention its types with lining epithelium of larynx. (Ja-06, Ju-09, 11, 14) with their histological types **(Nov-25)** (Nov-17)
4. How frame work of the larynx is formed. Mention its nerve supply & blood supply. (Ju-08, 10, 14, Ja-14, Ju-15)
5. Why is the larynx called a voice box? **(Nov-25)**

Muscle, Bones & Joint

1. Name the muscles of mastication with nerve supply. Write the origin insertion and action of two of them in a tabulated form. (Ja-08, 10, Ju-08, May-17)
2. Give the origin, insertion & nerve supply of muscle of mastication in a tabulated form. (**CMU:** May-20)
3. S/N : a) Temporalis muscle (Nov-15) b) Sternocleidomastoid muscle (Ja-16, May-19)
4. Name muscle of soft palate with nerve supply (**CMU: Nov-24)** Embryological basis of cleft palate **(CMU: Nov-24)**

Neck Region

1. How the Waldyer's lymphatic ring is formed (Nov-16, May-18)
2. Give the boundaris and contents of carotid triangles) (May-17)
3. S/N : a) Carotid sheath (**CMU:** Nov-20) (Ju-13, 16, Ja-15, Ju-16, Nov-17, 18)
   b) Investing layer of deep cervial fascia (May-15)
   c) Carotid triangle (Nov-16, May-18).
4. Mention the formation of waldeyer's lymphatic ring. **(CMU: May-23)**
5. Mention the boundary contents of digastric triangle. **(CMU: May-23)**

Brain & Eyeball

Cerebrum

1. Draw and label the circle of Willis with its branches & importance. (**CMU:** May-24) Write down the artery supply of cerebrum with diagram. (Ju- 10, 11, 15, 16, Ja-10, 11, 12, 14, 16, May-15, Nov-16)
2. Draw and label the superolateral surface of the cerebrum showing (**CMU:**May-21, 19, Nov-19) the major sulci, gyri, functional areas. (Ju-09, 11, Ja-11, 12, 14, Ju-15, Nov-15, May-17, 18) with broad mannumber **(Nov-25, May-25)**
3. S.N:- a. Corpus callosum (**CMU:** Nov-21, 20, 19) (Ju-13, 16, Ja-15,16, Nov-16, 17, 18),
   b. Circle of Willis (**CMU:**May-21, 20) c. Basal ganglion (Ja-02)
   d. Enumerate the white fiber of cerebrum with examples. (**CMU:**Nov-23)
7. Draw & label the Brodmann's functional area on superior lateral surface of cerebral hemisphere mentioning their Brodmann's number. (**CMU:** May-23, 22, 20) (Ja-15, May-16, 19, Nov-17, 18)
8. Give the artery supply of internal capsule? (**CMU:**May-22, 19) (May-17) & blood supply (**CMU:** Nov-23) Name the neurological cells with function of two of them (**CMU:** Nov-24)
9. Write down the muscles and functions of thalamus (May-17)

CamScanner

10. Artery supply blood supply of superolateral surface of cerebral hemisphere. **(Nov-25)** (CMU May-23, Nov-22, 21)
11. Function of basal ganglia **(CMU:** May-24)

Cerebellum

1. Draw and label the connection of cerebellum. Histological structure of cerebellar cortex wit diagram. (Ju-07, May-18)
2. Function and blood supply of cerebellum. (Ja-07, 09, Ju-10) **(CMU:** Nov-23, May-22)
4. **S/N-** Cerebellar syndrome (May-15)
5. Write down the parts of vermis of cerebellum (Nov-17)
6. Write down three features of cerebellar dysfunction/ lesion **(May-25)** **(CMU:** Nov-23, May-22, Nov-20, 19).
7. **S/N-** Cavernous Sinus **(CMU:** May-20)
8. Write down the morphological subdivision of cerebeller hemisphere mentioning their function **(CMU:** Nov-23)
9. Difference between grey matter and white matter. Classify White matter. **(CMU:** Nov-24)

Midbrain, Pons, Medulla Oblongata

1. What do you mean by brain stem?
2. Draw and label the transverse section of medulla oblongata at the label of pyramidal decussatio **(Nov-25)** **(CMU:** May-24, 23, Nov-21, 20). or sensory deccussation (Nov-17). Name the neuro in sensory pathway. (Ja-07, 08, 13, Ju-11)
3. Draw and lavel the transverse section of midbrain at the level of superior colliculus **(CMU: Nov-24,** 2 22, May-21, 19) (Ju-10, 13,16 N-18, Ja-12,15,16) & inferior colliculus (use diagram) **(CMU:**May-20
4. Draw & label a section of pons at the level of facial colliculus (Nov-15, Nov-16, May-18) (CMU May-22)
5. Mention the effect of Lesion of basal ganglia. **(CMU:** May-23)

Ventricles and C.S.F

1. Write down the formation, circulation **(CMU:**Nov-22, 21, 19) (Ju-13) and absorption of C.S. **(Nov-25)** **(CMU:** Nov-20) (May-15, Ju-15). what is hydrocephalus papilloedema? (Ja-10, 11, 1 Ju-07, 08, 09, 10, 11, 14) What is hydrocephalus **(CMU:** May-24)
2. Write about coroid plexus (May-16, 18) **(CMU:**May-22)
3. **S/N-** a) Blood brain barrier. **(CMU:**May-21, 19) (Ju-06, 08, May-16)
   b) 4th ventricle. (Ja-09, Nov-15)
4. Write down the nucleus and function of hypothalamus **(CMU:**Nov-22, 21) (May-18)
5. Draw & Lebel the floor of fourth vertical (use diagram) **(CMU:**May-20)
6. Write about 4th ventricle. (May-17)
7. What is blood brain barrier? **(CMU:** May-20) What is the importance of blood brain barrier, use diagram **(May-25, Nov-25)** How blood brain barrier is formed**(CMU:** May-24)
8. Mention the formation & function of choroid plexles. **(CMU:** May-23)

Spinal Cord & Pathway

1. Draw and label pathway of corticospinal tract. (Ju-13, 16, May-15), **(CMU:**May-19) What ar the effect of hemi section of spinal cord at mid thoracic level? (Ju-05, 08, Ja-07, 14, May-15)
2. How spinal nerve is formed? Write down the branches, functional components, innervation's of a spinal nerve. (Ja-06, Ju-03, May-16)
3. Draw & label a spinal nerve. (Ja-15, Ju-16, Nov-16, 17, May-18) How spinal nerve formed (May-21
4. Draw & label the transverse section of spinal cord at mid thoracic (May-19) **(CMU:**Nov-19) & cervical level.
   Write down the pathway of pain from receptor to center. **(CMU:** May-24) (Ju-07, 08,12)
5. Why the Babiniski's Sign is normal in 1st year age. (May-15)
6. Trace the pathway of fine touch (May-15)

CamScanner

7. Name the functional components of cranial nerves. Explain the effects of supranuclear lesions of facial nerve. After removal of foriegn body from piriform fossa why there may be hoarseness of voice? (May-15)
8. Origin & termination of upper motor neuron (Ja-12) Mention clinical features of lower motor neuron lesion. (Ju-10, Ja-13, May-19) **(CMU:**May-19)
9. What is aganglionic megacolon? (May-15)
10. Write the support & arterial supply of spinal cord. (May-15)
11. Draw & level the T/S of spinal cord showing ascending & descending tracts.(Ja-16)
12. Mention the site of lumber puncture & why it is chosen? (May-15)
    Mention the structure pierced in lumber puncture. **(CMU:** Nov-24**)**
13. Write the composition of sympathetic & parasympathetic nervous system. Mention the differences between them **(CMU:**May-21) (Nov-17, 15). Explain the supra & infra nuclear lesion of facial nerve.
14. Difference between upper & lower motor neuron lesion **(CMU: May-25, Nov-25) (CMU:** May-24, Nov-22, 21) (May-19)
15. Draw and label lateral spinothalamic tract. **(CMU:** May-19) (May-16, 17, Nov-18)
16. Draw and label of pyramidal tract (Nov-16)
17. Write about motor unit (May-16)
18. Why in children lumber puncture is performed at lower level than adult. **(CMU**: May-23) (May-16)
19. Draw and label a cross section of spinal cord at the level of mid thoracic level showing ascending and descending (May-17)
20. What is trigeminal neuroglia (May-18)
21. What is lower motor neuron. **(CMU:** May-19)
22. Difference between upper and lower motor neuron lesion. **(CMU:** Nov-22,20,19)
23. Explain anatomically/ developmentally/ histologically: In children lumber puncture is performed at a lower level than the adult **(CMU:** May-20)
24. Define upper motor neuron. Write down Four feature of upper motor neuron lesion. (**CMU:** Nov-23, May-22)
25. Mention 4 differences between sympathetic parasympathetic nervous system in a tabulated form. **CMU:** May 23**)**
26. Why spastic type of paralysis occurs in upper motor neuron lesion. **(CMU:** May-23)
27. Mention the effect of autonomic nervous system on heart **(CMU:** May-24**)**
28. Difference between pyramidal and extrapyramidal tract. (**CMU**)
29. Mention the structure, function and location of two neurological cells. Use diagram.

Eyeball

1. Name the refractory media of eye (May-15, Ju-15). Draw and label **(CMU:** Nov-22, May-22, 21, 20, 19) the visual pathway **(CMU:** May-23, 21, Ja-16) with locating nucleus. (Ju-07, 09, 10, 13, 14, Ja-08,09,11,14)
2. Name the neurons in visual pathway. Spinal root of accessory nerve.(Ju-12, Ju-15)
3. Write down the effect of lesion in the visual pathway. How optic tract is formed.(Ja-06,08)
4. Mention the changes occurring during accommodation reflex. (Ju-10,14, May-16)
5. What is accommodation reflex? Draw and label the accommodation reflex pathway. (Ja-06, 10, 14, Ju-12, Ju-15, Nov-15). What is glucoma? (Ju-11). What is cataract? (Ju-15)
6. What is light reflex? Draw and label the light reflex pathway. **(CMU:** Nov-22) (May-15)
7. **S.N:** a) Cornea (Ja-07, Nov-15, 16, May-18)
   b) Retina **(CMU:** Nov-21, 20, May-19) (Ju-16, May-17, Nov-18)
   c) Horner's syndrome (May-16)

CamScanner

d) Accommodation reflex (**CMU:** Nov-21, 20)
e) Light reflex (May-19)

8. Extraocular muscle with nerve supply (Ja-14, May-15). What is aphakia? (May-15)
9. Optic nerve is a tract-explain (Nov-15, May-17)
10. Trace the pathway of tears. **(May-25)**
11. What are the avascular structures of the eye, Mention the nutritional source. **(CMU: May-2 Nov-25)**

Systemic Embryology

Head, Neck, Brain and Eye Ball

1. Give the nerve supply of the tongue on developmental background. Development of epitheliu of tounge. (Ja-06, 07, Ju-12,14)
2. What is pharyngeal or brachial arch? Name the derivatives of pharyngeal arches in a tabulat form (1st & 2nd) **(Nov-25)** (Ja-05, Ju-07, 11, Ju-13,14, Ju-15, Ja-16, Nov-18, May-1 **(CMU:**Nov-21, May-21, 19)
3. What is pharyngeal pouch. Give the derivatives of pharyngeal pouches. **(CMU:**Nov-19) (Ju-10, Ja-13,14,15, Nov-16)
4. Write short note of thyroglossal cyst. (Ju-05, 07,10, Ja-08)
5. Write down the development and congenital anomalies of face. **(CMU:**May-20) (J-05, Ju-13, Ja-14
6. Position & development of brachial fistula. (Ju-11, 13), Write about the branchial cy **(CMU:**May-19) (Ja-14, Ju-14, May-19)
7. Write about brachial fistula. **(CMU:**May-21, 20) (Ja-15, Ju-15, Nov-18)
8. Write about branchial cyst. **(CMU:** Nov-24) (Nov-16)
9. Write down the derivatives of 1st & 2nd Branchial pouches in tabulated form **(CMU:** Nov-22, 2 May-22) (Nov-17, 18)
10. Define thyroglossal cyst. **(CMU:** Nov-22, May-21)
11. Classify neural tube defect with example. **(CMU: May-25)**

তোমাদের মধ্যে সেই হচ্ছে সর্বোত্তম ব্যক্তি যে নিজে কুরআন শিখে এবং অন্যকে শিক্ষা দেয় -আল হাদীস
